OIC business

Chemical injection trial is currently in progress.

District has changed to Badger Labs for testing. Agsource has been 6 weeks out to get reports which affects the Chemical trial and The DNR reports needed to be filed.

IFT Business

Electrical panels are ¾ built.

Conduit is progressing to all areas.

Electrical tear out/ reconstructing is started.

Programming and instrumentation are currently in design/engineering.

Looking at UV light options.

Tanks will be permanently removed in the next few weeks.

Old Business

Loans/Grants

USDA to get back to us if area qualifies for grants.

DNR CWFL are working on the intent to apply application. We have received the two agreement authorizations to finish the application process.

Internet- Starlink is now up and running. TDS will be cancelled.

District Letter- Only 2 Feedbacks from the letter.

Legal Issue- To get a stop order for a non-licensed person from working on equipment would be costly from our attorney. Our insurance company offers free legal help and they have been contacted and we are waiting for their response.

DRAFT

Turn over delinquent accounts to Tax role- 11 total accounts for about $7,000 will be turned over. Discussion on changing ordinance to have more penalties for nonpayment. Need to get shut off valves checked and working on these residences to be able to enforce delinquent shut offs. The turn over to tax role is quite extensive work for the town clerks, so the district will start doing more to keep from having to turn over the accounts. Also discussed getting a credit card payment company, which would cost 3.5% but could be charged to the card user. With postal delivery length uncertainty. If payment is received late the post date is being checked and if posted before due date it is not late. To check with title company to see how to get sewer bills paid if delinquent and someone sells their property.
